

Medication Note

Please note that we do not share pain relievers or other medication at camp. Upon arrival, any and all medication must be given to the Executive Director in the original containers indicating correct doses and times to be taken. Any camper who might require pain relievers or traveling medication must also provide this in the original container. Containers should be put into a ziplock bag labelled with the child's name and accompanied by a note containing the following information and signed by a parent. Please remember to ask for these back at the end of the weekend. Asthma pumps and EpiPens should remain with the camper.

- Child's Name: _____
- Name of Medication: _____
- Dosage: _____
- Condition for which the medication is required:

- Parent's Name: _____
- Signature: _____
